Corporate Policy Manual

Street Naming

Policy

To ensure that new street names assigned to roads within subdivisions reflect Port Moody's natural and cultural heritage and are allocated in a logical manner, the following policy has been established.

Procedures

When a subdivision applicant selects a street name from the approved Street Name List:

- 1) During the preliminary review of a subdivision application that would create a new street, Development Services staff will provide the applicant with a copy of the approved Street Name List and possible suggestions.
- 2) The applicant will review the suggested street names and, in consultation with staff, identify a preferred street name.
- 3) If the proposed street name is considered to be appropriate in the context of the development, staff will advise the applicant to include the proposed street name on the final subdivision plan.
- 4) The Approving Officer will verify that the street name appears as approved on the finalized subdivision plan prior to subdivision approval.

Where new roads are created by the City or another agency, the above process applies.

When a subdivision applicant proposes a street name that is not on the approved Street Name List:

- 1) During the preliminary review of a subdivision application that would create a new street, Development Services staff will provide the applicant with a copy of the approved Street Name List and possible suggestions.
- 2) Should the applicant prefer a different street naming theme, proposed alternatives, including the proposed street name and the rationale as to why the proposed name has been selected, will be submitted to staff in addition to a description of the proposed road naming theme. An administrative processing fee will be collected for this process.
- 3) If the proposed street name is considered to be appropriate in the context of the development, staff will refer the proposed name to the Fire Department, Police Department, Canada Post, and adjacent municipalities for review and comment to avoid potential street name conflicts.
- 4) Staff will review the responses for the referral agencies and then forward the proposed street name with a recommendation to Council for consideration.
- 5) The applicant will be informed of Council's decision regarding the requested street name. If the application is supported by Council, the applicant will be instructed to prepare the subdivision plans based on the approved street name. Should the application be rejected by Council, the applicant will have the option of re-applying with a revised set of street names or choosing a name from the approved list.
- 6) The Approving Officer will ensure that the street name included on the final subdivision plan reflects Council's direction.

Corporate Policy Manual

Street Naming

Approved List of Street Names

The approved list of street names will be administered and updated by the Development Services Department as names are removed as part of the street naming process.

Pioneer Commemoration

When naming streets in commemoration of the City's pioneers, the Mayor may present a small duplicate street sign to a family member of the Pioneer being honoured.

The Approving Officer, in situations where deemed appropriate, may request that a major street in a new subdivision be named in honour of a City pioneer.

Monitoring/Authority

The Approving Officer/General Manager of Development Services has been delegated the responsibility by Council for implementation of this policy.

CITY OF PORT MOODY

Street Naming Approval Application

This application is submitted in accordance with Corporate Policy – 11-5450-01 – Street Naming.

When a developer chooses not to select street names from the Council endorsed list of street names, the applicant has the option of submitting to Council an alternate street name proposal for consideration.
